1. Introduction-

Mahila Mandal Lunapani SHG have been already formed in the year 2009 and has also been included under Project for Improvement of Himachal Pradesh Forest Ecosystems Management & Livelihoods (JICA Assisted), which fall under VFDS Janwan and Range Urla. This SHG consists of 13 females and they collectively decided of preparing turmeric powder as there Income Generation Activity (IGA). These females already had the experience of growing turmeric and now with the help of this project funding, training and assistance. They will be able to sell the turmeric powder as a product in market rather than selling raw turmeric at lower price.

Turmeric is one of the oldest cultivated crops which have been grown in India for several thousand years. Turmeric, the main spice powder in the Indian cuisine, is considered by many to be the most powerful herb on the planet at fighting and potentially reversing disease.

Turmeric is traditionally well known for its culinary and medicinal properties. It is one of the multi-use products having many valuable properties and uses. It is extensively used in food, textile, medicine and cosmetic industries.

2. Description of SHG/CIG

1.	SHG/CIG Name	Mahila Mandal Lunapani
2.	VFDS	Janwan
3.	Range	Urla
4.	Division	Joginder Nagar
5.	Village	Janwan
6.	Block	Padhar
7.	District	Mandi
8.	Total no. of members in SHG	13
9.	Date of formation	Dec-2009
10.	Bank a/c No.	30996121994
11.	Bank details	SBI Gumma IFSC - SBIN0008843
12.	SHG/CIG monthly savings	650(50 per person)
13.	Total saving	73,814
14.	Total inter loaning	-
15.	Cash Credit Limit	-
16.	Repayment status	-

3. Beneficiaries Detail

S.no.	Name	M /F	Father/ Husband name	Category	Designation	Contact no.
1	Kanta Devi	F	Prrshotam Ram	General	President	98577-82966
2	Satya Devi	F	Tara Chand	General	Secretary	82194-30862
3	Kamla Thakur	F	Nityanand Thakur	General	Member	94597-87977
4	Prakasho Devi	F	Bhekham Ram	General	Member	86791-81435
5	Brahmi Devi	F	Gian Chand	General	Member	86795-60451
6	Kanta Devi	F	Prem Chand	General	Member	82198-15837
7	Amravati	F	Govind Ram	General	Member	76510-07672
8	Manju Devi	F	Gagan	General	Member	85804-53091
9	Vanita	F	Pawan Kumar	General	Member	98167-72303
10	Virendra	F	Kiker Singh	General	Member	98577-82966
11	Kamla Devi	F	Budhi Singh	General	Member	98189-24398
12	Maghe Devi	F	Hari Ram	General	Member	98571-23418
13	Babli Devi	F	Baldev Singh	General	Member	70184-09753

4. Geographical details of the Village

1	Distance from the District HQ	35 Km
2	Distance from Main Road	4 Km
3	Name of local market & distance	4 Km
4	Name of main market & distance	Padhar 4 Km
5	Name of main cities & distance	Mandi 35 Km, Joginder Nagar 37 Km
6	Name of main cities where product will be sold/ marketed	Padhar

5. Executive Summary-

Food Processing (Turmeric Powder) income generation activity has been selected by this Self Help Group. This IGA will be carried out by all ladies of this SHG. Powder of turmeric will be made by this group initially. This business activity will be carried out yearly by group members. The process of making powder takes around 8-10 days. Production process includes process like cleaning, washing, drying, grading, grinding etc. Initially group will manufacture powder of raw turmeric but in future, group will manufacture other products which follow same process. Product will be sold directly by group or indirectly through retailers and whole sellers of near market initially.

6. Description of product related to Income Generating Activity-

1	Name of the Product	Turmeric Powder
2	Method of product identification	Has been decided by group members
3	Consent of SHG/ CIG / cluster members	Yes

7. Production Processes-

❖ Harvesting-

- ❖ Depending upon the variety, the crop becomes ready for harvest in 7-9 months. Early varieties mature in 7-8 months, medium varieties in 8-9 months and late varieties after 9 months.
- ❖ On maturity, the leaves turn dry and are light brown to yellowish in colour.
- ❖ The land is ploughed and the rhizomes are gathered by hand picking or the clumps are carefully lifted with a spade.
- ❖ The harvested rhizomes are cleared of mud and other extraneous matter adhering to them.
- ❖ Fingers are separated from mother rhizomes. Mother rhizomes are usually kept as seed material.

❖ Processing-

❖ Sweating

After digging the turmeric from the ground, the leaves were separated from the plant and the roots were carefully wash off to remove all the impurities. Leaf scales and long roots are trim off and the rhizomes and branches are separate and cover in leaves and then remain for a day for sweating.

❖ Curing

To get the dry form of turmeric, it is being cure. After washing it off, the rhizomes were boiled in water and dry under the sun. The boiling process lasts from 45-60 min until the rhizomes turn soft. Boiling usually stop when comes out and white fumes appear giving out a typical odor. The stage where boiling is stopped highly influence the color and aroma of the final product.

❖ Drying

After curing the turmeric the next step is drying. By using the drying floor or bamboo mats 5-7 cm thick layer of turmeric spread under the sun for drying. It takes 10-15 days for drying properly. At the night the turmeric is cover with a material which provides aeration.

❖ Polishing

After drying it has a rough dull outer surface with scales and root bites. By polishing the appearance will be improve and for this basically manual and mechanical rubbing technique were use.

❖ Coloring

The color of turmeric matters a lot. As the price was decided according to the colour of the product.

❖ Grinding

The polished turmeric fingers are subjected to grinding. Grinding is one of the most common operations used to prepare turmeric powder for consumption and resale. The main aim of particular spice grinding is to obtain smaller particle sizes, with good product quality in terms of flavour and color. There are different ambient grinding mills

and methods available for this process; such as hammer mill, attrition mill and pin mill. In India, traditionally, plate mills and hammer mills are used for turmeric grinding.

◆ Sieving

Ground spices are size sorted through screens, and the larger particles can be further ground. The screens usually used are 60 - 80 mesh size.

✧ Packaging & Storing

Turmeric is packed in air-tight paper bags inner coated with polyethylene. Also, to maintain the quality of the product, it is stored in dry storage and away from the light. So that turmeric doesn't lose the proper amount of moisture it has.

8. Production Planning -

1.	Production Cycle for turmeric powder (in days)	8-10days
2.	Man power required per cycle(No.)	All ladies
3.	Source of raw materials	Local market/Main market
4.	Source of other resources	Local market / Main market
5.	Quantity required per month(Kg)	1,000
8.	Expected production per month(Kg)	1,000

Requirement of raw material and expected production

Sr.no	Raw material	Unit	Time	Quantity(approx)	Amount per Kg(Rs)	Total amount	Expected production Per month(Kg)
1	Raw Turmeric	Kg	Monthly	1000	50	50,000	1000

9. Sale &Marketing -

1	Potential market places	Joginder nagar, Padhar
2	Distance from the unit	14 Km, 18Km
3	Demand of the production market place/s	Daily demand
4	Process of identification of market	Group members, according to their production potential and demand in market, will select list of retailer or whole seller. Initially product will be sold in near markets.
5	Marketing Strategy of the product	SHG members will directly sell their product through village shops and from manufacturing place/shop. Also by retailer, wholesaler of near markets. Initially product will be sold in 5, 1 and 0.5 Kg's a packaging.
6	Product branding	At CIG/SHG level product will be marketed by branding CIG/SHG. Later this IGA may required branding at cluster level
7	Product "slogan"	"Mahila Mandal Lunapani Organic Haldi"

10. SWOT Analysis-

❖ Strength-

- ❖ Raw material easily available.
- ❖ Manufacturing process is simple.
- ❖ Proper packing and easy to transport.
- ❖ Product shelf life is long.
- ❖ Homemade, lower cost.

❖ Weakness-

- ❖ Effect of temperature, humidity, moisture on manufacturing process/product.
- ❖ Highly labor intensive work.
- ❖ Compete with other old and well known products.

❖ Opportunity–

- ❖ There are good opportunities of profits as product cost is lower than other same categories products.
- ❖ High demand in shops, fast food stalls, retailers, wholesalers, canteen, restaurants, chefs and cooks, housewives, by beauty brands for making beauty products and also by pharmaceutical companies.
- ❖ There are opportunities of expansion with production at a larger scale.
- ❖ Daily consumption.

❖ Threats/Risks–

- ❖ Effect of temperature, moisture at time of manufacturing and packaging particularly in winter and rainy season.
- ❖ Suddenly increase in price of raw material.
- ❖ Competitive market.

11. Description of management among members-

By mutual consent SHG group members will decide their role and responsibility to carry out the work. Work will be divided among members according to their mental and physical capabilities.

- ❖ Some group members will involve in Pre-production process (i.e. - procuring of raw material etc).
- ❖ Some group members will involve in production process.
- ❖ Some group members will involve in packaging and marketing.

12. Description of Economics -

A. Capital Cost				
S. No.	Particulars	Quantity	Unit Price	Amount (Rs)
1	Haldi seeds	130 Kg	100	13,000
2	Grinder Machine	1	35,000	35,000
3	Storage tank	1	10,000	10,000
4	Weighing machine	1	8,000	8,000
5	Kitchen tools		LS	10,000
6	Finished product storage almirah/racks	2	5,000	10,000
7	Hand Operated Packing Machine	1	10,000	10,000
8	Apron, cap, plastic hand gloves etc		LS	5000
Total Capital Cost (A) =			1,01,000	

Note – As raw turmeric will be produced by group members and labour work will be done by members themselves, therefore, these costs will be reduced from total recurring cost.

B. Recurring Cost					
S. No.	Particulars	Unit	Quantity	Price	Total Amount (Rs)
1	Raw material	Month	1000	50	50,000
2	Room rent	Month	1	1000	1000
3	Packaging material	Month	LS	2000	2000
4	Transportation	Month	1	1200	1200
5	Other (stationary, electricity, water bill, machine repair)	Month	1	2000	2000
Total Recurring Cost (B) =					56,200

C. Cost of production		
S. No.	Particulars	Amount
1	Total recurring cost	56,200
2	10% depreciation annually on capital cost	10,100
Total = 66,300		

D. Selling price calculation			
S. No.	Particulars	Unit	Amount
1	Cost of production	Kg	80
2	Current market price	Kg	250-300
3	Expected selling price	Kg	200

13. Analysis of Income and Expenditure (per month) -

S. No.	Particulars	Amount
1	10% depreciation annually on capital cost	10,100
2	Total Recurring Cost	56,200
3	Total Production (Kg)	1000
4	Selling Price (per Kg)	200
5	Income generation (200*1000)	2,00,000
6	Net profit (200000 - 56200)	1,43,800
7	Gross profit = Net Profit + cost of raw material.	=1,43,800 + 50,000 =193,800
8	Distribution of net profit	<ul style="list-style-type: none"> ✧ Profit will be distributed equally among members monthly/yearly basis. ✧ Profit will be utilized to meet recurring cost. ✧ Profit will be used for further investment in IGA

14. Fund Requirement -

S. No.	Particulars	Total Amount (Rs)	Project Contribution	SHG contribution
1	Total capital cost	1,01,000	75,750	25,250
2	Total Recurring Cost	56,200	0	56,200
3	Training/capacity building/skill up-gradation.	70,000	70,000	0
Total		2,27,200	1,45,750	81,450

15. Sources of Fund -

Project support	<ul style="list-style-type: none"> ✧ 50% of capital cost will be provided by project if the group belongs to general category and 75% of capital cost will be provided for SC/ST/poor women. ✧ Up to Rs 1 lakh will be parked in the SHG bank account. Training/capacity building/ skill up-gradation cost. ✧ The subsidy of 5% interest rate will be deposited directly to the Bank/Financial Institution by DMU and this facility will be only for three years. SHG have to pay the installments of the Principal amount on regular basis. 	Procurement of machines/equipment will be done by respective DMU/FCCU after following all codal formalities.
SHG Contribution	<ul style="list-style-type: none"> ✧ 50% of capital cost to be borne by SHG if belongs to general category and if from other category then 25%. But members belongs to low income group and they can contribute 25% and project has to bear remaining 75% as per the 5th GB decision. ✧ Recurring cost to be borne by SHG 	

16. Training/capacity building/skill up-gradation -

Training/capacity building/ skill up-gradation cost will be borne by project.

Following are some training/capacity building/ skill up-gradation proposed/needed:

- ✧ Cost effective procurement of raw material
- ✧ Quality control
- ✧ Packaging and Marketing
- ✧ Financial Management

17. Computation of break-even point -

= Capital Expenditure/(selling price (per kg)-cost of production (per kg))

=1, 01,000/ (200-80)

=842 Kg

In this process break-even will be achieved after selling 842 kg powder.

18. Bank Loan Repayment-

If the loan is availed from bank it will be in the form of cash credit limit and for CCL there is not repayment schedule; however, the monthly saving and repayment receipt from members should be routed through CCL.

- ✧ In CCL, the principal loan outstanding of the SHG must be fully paid to the banks once a year. The interest amount should be paid on a monthly basis.
- ✧ In term loans, the repayment must be made as per the repayment schedule in the banks.
- ✧ Project support - The subsidy of 5% interest rate will be deposited directly to the Bank/Financial Institution by DMU and this facility will be only for three years. SHG/CIG has to pay the installments of the Principal amount on regular basis.

19. Monitoring Method-

- ❖ Social Audit Committee of the VFDS will monitor the progress and performance of the IGA and suggest corrective action if need be to ensure operation of the unit as per projection.

- ❖ SHG should also review the progress and performance of the IGA of each member and suggest corrective action if need be to ensure operation of the unit as per projection.

Some key indicators for the monitoring are as:

- ❖ Size of the group
- ❖ Fund management
- ❖ Investment
- ❖ Income generation
- ❖ Quality of product

20. Remarks

Members belong to low income group and they can contribute 25% and project has to bear remaining 75%.
