### 1. Introduction-

Fruits and vegetables preserved in common salt, vinegar, oil or citrus fruit juices are called pickles. Pickles are usually made from a mixture of vegetables and fruits. They are eaten as a savory, spicy accompaniment to a meal. Pickles are made by immersing the fruits or vegetables in the brine or vinegar solution and stored for a period of time during which the ingredients goes through the pickling process and acquire the desired taste. Pickles are usually sweet or sour in taste and are often spicy. They acquire the taste of the key ingredient which is the vegetable or fruit of which the pickle is made. Mango, lime, carrot, bitter gourd, beans, chillies, garlic, ginger, brinjal and onion are mainly processed for pickles.

The most lucrative aspect of the pickle making business is that it can be started as per the financial capacity of the group and later on at any given time when the financial portfolio of the SHG improves the business can be scaled up to any level. Once the product is liked by customers the business will flourish like anything.

After discussing about the market potential and different aspects very carefully before getting into this IGA (Income Generation Activity). The Jai Maa Ashapuri SHG group has collectively decided of pickle making as their Income Generation Activity (IGA). Jai Maa Ashapuri SHG is formed under Project for Improvement of Himachal Pradesh Forest Ecosystems Management & Livelihoods (JICA Assisted), which fall under VFDS Gangoti. This SHG consists of 8 females. These females already had the experience of making pickles and now with the help of this project funding, training and assistance, they will be able to manufacture pickles at a large scale and will become self independent and generate income. The SHG has therefore crafted a detailed business plan according to its investment capacity, marketing & promotional strategy and the detailed action plan will be discussed hereunder:

#### 5. Market Potential-

The market of pickles is on the ever increasing side both in domestic and export market. The popular variety of pickles are mango pickle, lime pickle, mix vegetable, red chilies pickle etc. Ginger, garlic mushrooms pickles have also gained popularity in the recent years. Pickles are one of the earliest commercial product appeared in the market a product of fruits and vegetable preservation. A large number of brands of pickles are available in the market still there exist good scale for new brands and of palatability.

## 6. Executive Summary-

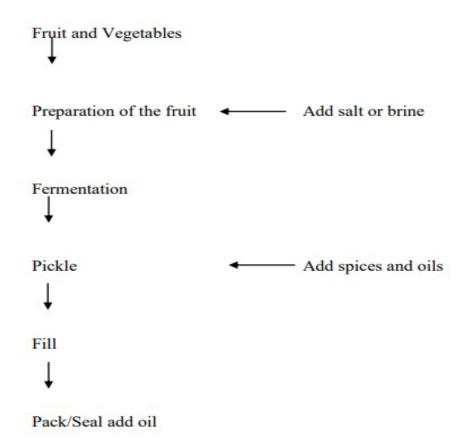

Food Processing (Pickle making) income generation activity has been selected by this Self Help Group. This IGA will be carried out by all ladies of this SHG. This business activity will be carried out yearly by group members. The process of making pickle takes around 3-7 days. Production process includes process like washing, slicing of vegetables, adding brine, desalting, adding species, oil and add preservative and finally packing. Initially group will manufacture one type of pickle but in future, group will manufacture other pickle products increasing the varieties of pickle which follow same process. Product will be sold directly by group or indirectly through retailers and whole sellers of near market initially.

## 7. Description of product related to Income Generating Activity-

1	Name of the Product	Pickle making
2	Method of product identification	Has been decided by group members
3	Consent of SHG/ CIG / cluster members	Yes

## 8. Description of Production Processes-

### Flow Sheet for the Preparation of Pickles

### 9. Pickle making business compliance -

Pickle is a food item therefore different regulation of the state government need to be followed. Since IGA is being taken up initially on small scale therefore these legal issues will be addressed locally by the SHG members by obtaining a food handling license from the local authorities. The business is being operated from home therefore the tax regulations for self employed groups will be taken care as per the rules.

## 10. Production Planning -

### 12. SWOT Analysis-

### ❖ Strength—

- ♦ Raw material easily available.
- ♦ Manufacturing process is simple.
- ♦ Proper packing and easy to transport.
- ♦ Product shelf life is long.
- ♦ Homemade, lower cost.

#### ❖ Weakness-

- ♦ Effect of temperature, humidity, moisture on manufacturing process/product.
- ♦ Highly labor intensive work.
- ♦ Compete with other old and well known products.

## Opportunity—

- ♦ There are good opportunities of profits as product cost is lower than other same categories products.
- → High demand in shops, fast food stalls, retailers, wholesalers, canteen, restaurants, chefs and cooks, housewives.
- ♦ There are opportunities of expansion with production at a larger scale.
- ♦ Daily consumption. And consumption by all buyers in all seasons.

#### Threats/Risks-

- ♦ Effect of temperature, moisture at time of manufacturing and packaging particularly in winter and rainy season.
- ♦ Suddenly increase in price of raw material.
- ♦ Competitive market.

## 13. Description of management among members-

By mutual consent SHG group members will decide their role and responsibility to carry out the work. Work will be divided among members according to their mental and physical capabilities.

- Some group members will involve in Pre-production process (i.e. procuring of raw material etc).
- Some group members will involve in production process.
- Some group members will involve in packaging and marketing.

#### 18. Training/capacity building/skill up-gradation -

Training/capacity building/ skill up-gradation cost will be borne by project. Following are some training/capacity building/ skill up-gradation proposed/needed:

- ♦ Cost effective procurement of raw material
- ♦ Quality control
- ♦ Packaging and Marketing
- ♦ Financial Management

### 19. Computation of break-even point -

- = Capital Expenditure/ [selling price (per kg)-cost of production (per kg)]
- = 1,12,000/(200-120)
- = 1400 Kg

In this process break-even will be achieved after selling 1400 kg of pickles.

#### 20. Bank Loan Repayment-

If the loan is availed from bank it will be in the form of cash credit limit and for CCL there is not repayment schedule; however, the monthly saving and repayment receipt from members should be routed through CCL.

- ♦ In CCL, the principal loan outstanding of the SHG must be fully paid to the banks once a year. The interest amount should be paid on a monthly basis.
- ❖ In term loans, the repayment must be made as per the repayment schedule in the banks.
- ❖ Project support The subsidy of 5% interest rate will be deposited directly to the Bank/Financial Institution by DMU and this facility will be only for three years. SHG/CIG has to pay the installments of the Principal amount on regular basis.

### 21. Monitoring Method-

- Social Audit Committee of the VFDS will monitor the progress and performance of the IGA and suggest corrective action if needed to ensure operation of the unit as per projection.
- SHG should also review the progress and performance of the IGA of each member and suggest corrective action if needed to ensure operation of the unit as per projection.

Some key indicators for the monitoring are as:

- ♦ Size of the group
- ♦ Fund management
- ♦ Investment
- ♦ Income generation
- ♦ Quality of product

#### 22. Remarks

The group consists of all women members which belongs to low income group and they can contribute 25% and project has to bear remaining 75%.
