1. Introduction

Himachal Pradesh is a State in the Northern part of the India and is situated in the western Himalayas. It is characterized by an extreme landscape featuring several peaks and extensive river system. Himachal Pradesh is known as “Land of God “and is also known for its scenic beauty. Himachal Pradesh is rich in flora and fauna.

The state has diverse ecosystem, rivers and valleys, and has a population of 7.5 million and covers 55,673 sq.km ranging from foothills of Shivalik to the mid hills (300 - 6816 MT above MSL), high hills and cold dry zones of the upper Himalayas. It is spread across valleys with many perennial rivers flowing through them. Almost 90% of the state’s population lives in rural areas. Agriculture, horticulture, hydropower and tourism are important constituents of the state's economy.

The Himachal state has 12 districts and Kinnaur is one of the Twelve Administrative District of the State. The Kinnaur district is divided into three administrative sub division viz Kalpa, Nichar (Bhaba Nager) and Pooh and has six Tehsils. The district Headquarter is located at Recong Peo. It is the 2nd least populous district of Himachal Pradesh after Lahul and Spiti. The total geographical area of the district Kinnaur is 6401 Sqr.KM and the population is 84121 as per 2011 census.

The Kinnaur district once a forbidden land, is now treasure’s trove for the daring and adventurers seekers. The Mount Kinnaur Kailash, Abode of Lord Shiva can be seen from Kalpa. Beside this there is pristine at Nako village. The lower Kinnaur has large influences of Hinduism with traces of Buddhism in their belief systems, and in the higher reaches it is Buddhism that dominates and both the religions co exist in harmony. The Kinnaur District is famous for its dry fruits viz. Chilgoza, Apricot, and Badam. Beside this the Apple cultivation has also gained momentum & now the apple from Kinnaur district is fetching highest value as compare to the other part of the State growing apple crop.

Sweater and Cardigan knitting along with knitting socks, mufflers, scarf, caps, gloves etc. is a common household activity mainly among the women in rural India. Most of the women are well conversant with this IGA and they do it happily in their free time and as well while doing other household works. The women in this SHG are already in activity to meet the need of their family members. Now the members have chosen this activity as IGA so that they can earn extra money to meet their expenses and raise some saving also for the difficult times. A group of 12 women of different age group came together to form a SHG under JICA project and decided to craft a business plan which can help them to take this IGA in collective manner and raise their additional income.

2. Management

Knitting centre by Lumxihas 14 women members and they will have individual knitting machines and will hire a room in the village to execute their plan and work in a collective manner. Before the start of the actual work in the centre all the members will be imparted a short-term capsule course for training them in knitting under some professional trainers.

3. Primary Action Plan

The members of this SHG have very clear vision of this IGA and after careful and thoughtful discussion within the group decided to take up this activity for additional income. The members are doing this activity in isolation but now they have joined hands to venture into to this activity at a bit larger scale and in a planned manner. The division of labour between the members have been planned carefully so that each and contributes towards strengthening the IGA and resulting the additional money into their pockets.

4. Customers

The primary customers of our centre will mostly be local people around village Chaurabut later on this business can be scaled up by catering to nearby small townships.

5. Target of the centre

The centre primarily aims at to provide unique modern and high class knitting service to the residents of Chauravillage in particular and all other residents of nearby villages.

This centre will ensure to become the most renowned knitting centre with quality work in its area of operation in coming years.

6. The reason to start this business

Due to the prior experience of the members of this SHG who are already doing same work here and there this IGA has been selected and therefore the SHG is starting this business. This is an effort to combine the skill of various members and scale up their activity to earn more livelihoods.

7. SWOT Analysis

❖ Strength

- ➔ Activity is being already done by some SHG members
- ➔ Raw material easily available from nearby markets
- ➔ Manufacturing process is simple
- ➔ Proper packing and easy to transport
- ➔ Other family members will also cooperate with beneficiaries
- ➔ Product self-life is long

❖ Weakness

- ➔ Lack of technical know-how

❖ Opportunity

- ➔ Increasing demand for good products

❖ Threats/Risks

- ➔ Competitive market
- ➔ Level of commitment among beneficiaries towards participation in training/ capacity building & skill up-gradation

8. Machinery, tools and other Equipment's

The traditional knitting along with the mechanical knitting will go hand in hand so that a value product is made available for marketing and making it competitive both in quality and price tag. Some of the items will be produced in traditional manner and others in mechanical manner depending upon the demand in the targeted area. The following machinery and tools need to be procured.

A. CAPITAL COST				
Sr. No.	Particulars of machinery.	Quantity	Rate per unit	Total Amount
1.	Punch card knitting machine	11	35000	3,85,000
2.	Knitting design book		1500	1500
3.	Gola making machine	5	600	3000
4.	Working table	11	1500	16500
5.	Plastic chairs	11	600	6600
Total capital cost				4,12,600

B. Recurring cost				
Sr. No.	Particulars	Unit	Rate	Amount
1.	Room rent	Per month	2000	2000
2.	Water & electricity	Per month	1000	1000
3.	Knitting yarn of different colour and quality	Per month L/S	95000	95000
4.	Lubricating oil & pipet	Per month	1400	1400
5.	Wear & tear	Per month L/S	1500	1500
Total Recurring cost				100900

9. Total production and sale amount in month

Since it is an additional activity in the SHG apart from their routine household work the outcome will be proportionate to the working hours of each member. It is always better initially to keep the production on conservative side which can always be scaled up with passage of time and work experience. Therefore, it is presumed that each member will produce one item per day as finally finished product and daily 14 items can be made available for sale. Keeping in view this production rate of approximately 400 finished items will be ready for sale in one month. As beginner the item rate on an average if presumed to be Rs. 600 each therefore the total income per month is worked as under:

Particulars	Total Amount (Rs.)	Project contribution (75%)	SHG contribution (25%)
Total capital cost	4,12,600	309450	1,03150
Recurring cost			
10% depreciation on capital cost/ month	4000	-	4000
Other expenditure per month	100900	-nil-	100900
Total	5,17,500	309450	2,08,050

Total sale in a month (700*500) = 3,50,000

However, an amount of rupees 309450 is the project support therefore for calculation purpose this amount can safely be deducted from the expenditure column and the net income can be re-cast again. Moreover the members of SHG will be doing the job collectively therefore their wages have not been taken into account. The net income at the end of the month is re-cast as under:

<u>Capital cost</u>		
Particulars	Amount	SHG contribution

Capital cost	4,12,600	103150
<u>Recurring expenditure</u>		
i) 10% depreciation on capital cost per month	4000	
i) Other expenditure on material cost etc.	100900	
Total	1,04,900	
Total cost	103150+104900=2,08,050	
Total sale in 1st month	350000	
Net profit	1,41,950	

10. Sharing of the profit

The members of SHG has mutually agreed with consent voice that in the 1st month Rs. 8000 will be paid to each member as income and the remaining profit of Rs. 53,950 will be kept as emergency reserve in their bank account to meet up the future contingency, if any.

11. Fund flow in the group:

Sr.No.	Particulars	Total Amount (Rs)	Project contribution	SHG contribution
1	Total capital cost	412600	309450	1,03,150
2	Total Recurring Cost	100900	-	100900
3	Trainings	80000	80000	0
	Total outlay	5,93,500	3,89,450	2,04,050
