1. Introduction

Achar/Pickles are very important ingredient of dining table across the globe and more often used in the Asia Pacific region. A wide range of variety is used in achar/pickle and varies from region to region depending upon the locally available raw material, taste and food habit of the people.

The most lucrative aspect of the pickle making business is that it can be started as per the financial capacity of the group and later on at any given time when the financial portfolio of the SHG improves the business can be scaled up to any level. Once your product and Its taste is liked by the customers the business will flourish like anything. However, the SHG has considered different aspects very carefully before getting into this IGA (income generation activity). The SHG has therefore crafted a detailed business plan according to its investment capacity, marketing & promotional strategy and the detailed action plan will be discussed hereunder:

2. Description of SHG/CIG

1	SHG/CIG Name	::	VANDANA SHG
2	VFDS	::	Minjgran
3	Range	::	Nurpur
4	Division	::	Nurpur
5	Village	::	Minjgran
6	Block	::	Nurpur
7	District	::	Kangra
8	Total No. of Members in SHG	::	10
9	Date of formation	::	
10	Bank a/c No.	::	50074999740
11	Bank Details	::	Kangra Co-operative Bank
12	SHG/CIG Monthly Saving	::	/-
13	Total saving	::	/-
14	Total inter-loaning	::	/-
15	Cash Credit Limit	::	
16	Repayment Status	::	
17	Interest rate	::	%

3. Beneficiaries Detail:

Sr. No	Name	Age	Category	Income Source	Address
1	Chaya Devi	32	OBC	Agriculture	Village Minjgran PO Bhadwar Tehsil Nurpur Distt. Kangra HP
2	Neelam Devi	34	OBC	Agriculture	Village Minjgran PO Bhadwar Tehsil Nurpur Distt. Kangra HP
3	Jeevana Devi	42	OBC	Agriculture	Village Minjgran PO Bhadwar Tehsil Nurpur Distt. Kangra HP
4	Rano Devi	60	OBC	Agriculture	Village Minjgran PO Bhadwar Tehsil Nurpur Distt. Kangra HP
5	Chanchala	35	OBC	Agriculture	Village Minjgran PO Bhadwar Tehsil Nurpur Distt. Kangra HP
6	Soni Devi	35	OBC	Agriculture	Village Minjgran PO Bhadwar Tehsil Nurpur Distt. Kangra HP
7	Mamta Rani	45	OBC	Agriculture	Village Minjgran PO Bhadwar Tehsil Nurpur Distt. Kangra HP
8	Kamla Devi	40	OBC	Agriculture	Village Minjgran PO Bhadwar Tehsil Nurpur Distt. Kangra HP
9	Lalita	40	OBC	Agriculture	Village Minjgran PO Bhadwar Tehsil Nurpur Distt. Kangra HP
10	Nisha devi	30	OBC	Agriculture	Village Minjgran PO Bhadwar Tehsil Nurpur Distt. Kangra HP

4. Geographical details of the Village

1	Distance from the District HQ	::	55Km
2	Distance from Main Road	::	1Km.
3	Name of local market & distance	::	Bhadwar- 2Km
4	Name of main market & distance	::	Nurpur -15KM
5	Name of main cities & distance	::	Kangra 55Km, Pathankot 36 Km
6	Name of main cities where product will be sold/ marketed	::	Nurpur, Jassur, Kangra Pathankot

5. Selection of raw material and market potential

The members of SHG after detailed discussion and thoughtful process were of the consensus that this IGA of achar chutney/pickle making will be suitable for them. People consume different pickles with meal and it serve as taste enhancer. Pickles are also used as toppings for food such as sandwiches, hamburgers, hotdogs, parathas and pulav etc.

Mango and lemon pickles are the most popular variety across the globe. Here Vandana particularly in this SHG we will focus mainly on the locally and easily available raw materials such as garlic, ginger, Gal-Gal (hill lemon), lingad, mango, lemon, mushroom, green chillies, fish, chicken and mutton etc.

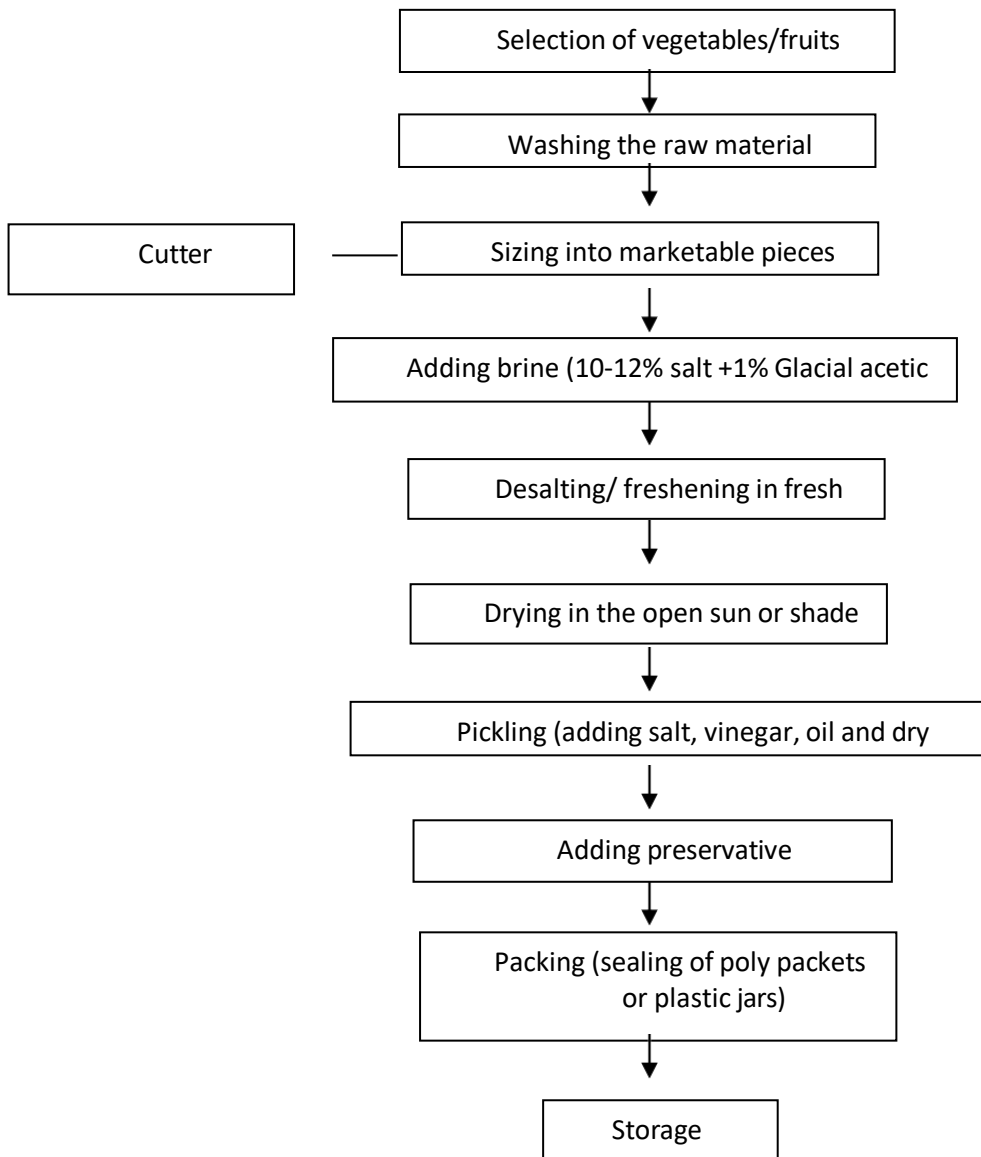

The pickle market is highly fragmented because of the presence of several large and small vendors and the competition is on the basis of factors such as price, quality, innovation, reputation, service, distribution and promotion to grab lion share in the market. Pickle making is an ideal business on the small scale and mainly for the housewives and other women workforce. In this case it was felt when the sellers of pickles from minjgran Nurpur and Kangra can sell their pickles in command area then this SHG can do it more vigorously and briskly and compete with such outsiders.

6. **Achar chutney/ pickle making business plan**

Before starting any IGA (Income generation activity) it is very essential to craft a customized business plan with detailed and structured discussion. The business plan helps to get the clear conception of investment, operational activities, marketing and net income/return. The scope of scale up the business is also envisaged clearly and in addition it helps in arranging finance from the banks. It is advisable to have market survey prior to returning upon the business and plus point is that the group members of this SHG are well aware of the market study. Primarily the SHG studied the demand for the specific type of pickles in their area and mainly the local market was kept as target. The members of SHG has shortlisted the IGA a carefully by making the study of nearby markets and the taste of the people at large and have seen potential to venture upon this activity as IGA.

Most of the raw material is locally available and lingad is naturally growing fern spp. free of cost in the nearby moist areas and nullahas. People of the small townships around this group has inherent liking towards this lingad pickle which otherwise is not available in the open markets.

Flow chart of the Achar chutney making process

7. **Achar chutney/pickle making business compliance**

Pickle is a food item therefore different regulations of the state government need to be followed. Since the IGA is being taken up initially on small scale therefore these legal issues will be address locally by the SHG members by obtaining a food handling license from the local authorities. The business is being operated from home therefore the tax regulations for self-employed groups will be taken care as per the rules.

8. Different types of Achar/pickles

As discussed in earlier chapter mostly the locally and easily available raw material for pickle making will be used. Pickles are of numerous taste and flavours whereas, the SHG will focus mainly on the traditional and more commonly used pickle in the area and market for which this SHG intends to cater for. Once the business of the SHG picks up the demand driven quality pickle will be prepared and customized as per the taste of the customers.

Some of the most popular and commonly used pickles are mango, bamboo shoot, mushroom, garlic, ginger, lingad, fish and chicken etc. Sometimes the mixed pickles such as garlic - arbi (Ghindyali) mango - green chillies, mix veg. etc. will also be prepared as per the taste and demand of the targeted customers.

9. SWOT Analysis

a. Strength–

- i. Activity is being already done by some SHG members
- ii. Raw material easily available
- iii. Manufacturing process is simple
- iv. Proper packing and easy to transport
- v. Product shelf life is long
- vi. Homemade, lower cost

b. Weakness–

- i. Effect of temperature, humidity, moisture on manufacturing process/product.
- ii. Highly labour-intensive work.
- iii. Compete with other old and well-known products

c. Opportunity–

- i. There are good opportunities of profits as product cost is lower than other same categories products
- ii. High demand in → Shops → Fast food stalls → Retailers → Wholesalers → Canteen → Restaurants → Chefs and cooks → Housewives
- iii. There are opportunities of expansion with production at a larger scale.
- iv. Daily/weekly consumption and consume by all buyers in all seasons

d. Threats/Risks–

- i. Effect of temperature, moisture at time of manufacturing and packaging particularly in winter and rainy season.
- ii. Suddenly increase in price of raw material
- iii. Competitive market

10. Achar chutney/ Pickle making equipments

The requirement of equipment or machinery basically depends upon our mode of operation and size of the plan. In this case the SHG will start initially on small and manageable scale. Therefore, the appliances and accessories used in kitchen are enough to meet the demand apart from this some of the machinery will have to be purchased to make the plan viable and therefore some of the basic equipment's will also be included for procurement which will help the SHG to scale of its activities at larger level. The following equipment's will be procured initially to start the plan:

A. CAPITAL COST		
Sr. No.	Equipment	Approximately cost
1.	Grinder machine	25000
2.	Vegetable dehydrator	10000
3.	Cooking arrangement (commercial Gas cylinder with chullah)	7000
4.	Weighing scale (2 no.'s)	3000
5.	Packaging/ sealing unit	5000
	Total	50000

Sr. No.	Utensils	Quantity	Unit price	Total amount
1.	Pattila	3	2000	6000
2.	Card board	2	200	400
3.	Knife	5	100	500
Total				6900
Total capital cost				56900/-

11. Achar chutney pickle making raw material

The detail of raw material will depend upon the essential availability of different fruits, vegetables and non veg. articles. However, the main raw material will remain Bamboo Shoot (Maanu) , mango, ginger, garlic, chilli, lingad, fish, mutton, mushroom, gal-gal, lemon, pear, apricot etc. In addition to these different spices, salt, cooking oil, vinegar etc. will be procured. Apart from this packaging material such as plastic jars, pouches, labels and cartons will be procured. As per the market demand the packaging will be done in 250g, 500 g, 1 kg and 2 kg containers/pouches.

In addition to this SHG will hire a spacious room which will be use for operational activities, temporary storage and the command area being in village. The rent per month is presumed to be Rs. 4000 per month. Electricity and water charges have been estimated Rs. 1000 per month. The cost of fruits and vegetables on an average have been estimated at the Rs. 200 per kg and keeping in view the manpower available at our disposal at least 350 kg of achar will be produced in one week and it amounts to be 1400 kg in one month. Accordingly, therefore recurring cost for 1400 kg of achar is calculated as under:

B. RECURRING COST					
Sr. No.	Particulars	Unit	Quantity	Unitcost	Total amount
1.	Room rent	Per month	1	1500	1500
2.	Water & electricity Charges	Per month	1	1000	1000
3.	Raw material	K g	560	200	112000
4.	Spices etc.	K g	70	200	14000
5.	Sarson (mustard) oil	K g	60	150	9000
6.	Packaging material	K g	12	350	4200
7.	Transportation Charges	Month	L/S	2000	2000
8.	Clinical gloves, head cover and aprons etc.	Month	L/S	1000	1000
Total recurring cost					142900

Note: The group members will do the work themselves and therefore labour cost has not been included and the members will manage between them the working schedule to be followed.

12. Cost of production (monthly)

Sr.No.	Particulars	Amount
1.	Total recurring cost	142900
2.	10% depreciation monthly on capital cost (56900)	132
	Total	143032

Average income monthly by way of sale of achar/pickle

Sr. No.	Particulars	Quantity	Cost	Amount
1.	Sale of pickles	560kg	350/Kg	196000

13. Cost benefit analysis (monthly)

Sr. No.	Particulars	Amount
1.	Total recurring cost	142900
2.	Total sale amount	196000
3.	Net profit	53100
4.	Distribution of net profit	The remaining out of total sale will be kept as emergency fund in the SHG.

14. Fund flow arrangement in the SHG

Sr. No.	Particulars	Total amount	Project contribution	SHG contribution
1.	Total capital cost	56900	42675	14225
2.	Total recurring cost	142900	0	142900
3.	Training/ capacity building, skill upgradation	28000	28000	0
Total		227800	70675	157125

Note: i) Capital cost- 75% capital cost will be borne by the project and 25% by the SHG

ii) Recurring cost- to be borne by the SHG

iii) Training and capacity building/ skill upgradation to be borne by the project

iv)

15. Training capacity building skill upgradation

The cost of training/ capacity building and skill up-gradation will entirely borne by the project. These are some of the areas which are proposed to be taken care of under this component:

- i) Cost effective procurement of raw material
- ii) Quality control
- iii) Packaging and marketing practices
- iv) Financial management and resource mobilization

16. Other sources of income

Other sources of income can also be explored by the SHG such as grinding mango, amla, pulses, wheat, maize, etc. of the villagers and the local people in the vicinity. It will be additionality in the IGA and later on the same can be scaled up.

17. Monitoring method

- Social Audit Committee of the VFDS will monitor the progress and performance of the IGA and suggest corrective action if needed to ensure operation of the unit as per projection.
- SHG should also review the progress and performance of the IGA of each member and suggest corrective action if needed to ensure operation of the unit as per projection.

Some key indicators for the monitoring are as:

- Size of the group
- Fund management
- Investment
- Income generation
- Quality of product
