### 1. Introduction-

Maa Bhawani SHG is formed on 03-06-2024, under Project for Improvement of Himachal Pradesh Forest Ecosystems Management & Livelihoods (JICA Assisted), which fall under VFDS Sidh Naag Raj and Range Jaisinghpur. This SHG consists of 8 females and they collectively decided of preparing turmeric powder as there Income Generation Activity (IGA). These females already had the experience of growing turmeric and now with the help of this project funding, training and assistance. They will be able to sell the turmeric powder as a product in market rather than selling raw turmeric at lower price.

Turmeric is one of the oldest cultivated crops which have been grown in India for several thousand years. Turmeric, the main spice powder in the Indian cuisine, is considered by many to be the most powerful herb on the planet at fighting and potentially reversing disease.

Turmeric is traditionally well known for its culinary and medicinal properties. It is one of the multi-use products having many valuable properties and uses. It is extensively used in food, textile, medicine and cosmetic industries.

SHG: Maa Bhawani, VFDS: Sidh Naag Raj, Range: Jaisinghpur, Forest Division: Palampur

# 2. Description of SHG/CIG

1.	SHG/CIG Name	Maa Bhawani	
2.	VFDS	Sidh Naag Raj	
3.	Range	Jasinghpur	
4.	Division	Palampur	
5.	Village	Lahru	
6.	Block	Lambagaon	
7.	District	Kangra	
8.	Total no. of members in SHG	8	
9.	Date of formation	03-06-2024	
10.	Bank a/c No.	50077420515	
11.	Bank details	KCC Bank Bheri IFSC Code KACE0000173	
12.	SHG/CIG monthly savings	100 per members	
13.	Total saving	800	
14.	Total inter loaning	-	
15.	Cash Credit Limit	-	
16.	Repayment status	-	

# 3. Beneficiaries Detail

S.no.	Name	M/ F	Father/ Husband name	Category	Designation	Contact no.
1	Bhawna	F	Soaruv Sehdev	General	Pardhan	9971233566
2	Anita Devi	F	Pawan Singh	General	Secretary	8894228531
3	Sarita	F	Puran Singh	SC	Member	8628065244
4	Sarla Devi	F	Gyan Singh	SC	Member	9816419625
5	Pinki	F	Anoop Singh	General	Member	889483850
6	Satya Devi	F	Gyan Chand	SC	Member	7876290278
7	Rukmani	F	Ganga Ram	General	Member	9736164600
8	Uma	F	Kuldeep Singh	General	Member	9816201134

# 4. Geographical details of the Village

1	Distance from the District HQ	95 km		
2	Distance from Main Road	50 Mtr		
3	Name of local market & distance	Jaisinghpur and Sujanpur 35 and 20 Km		
4	Name of main market & distance	Jaisinghpur and Sujanpur 35 and 20 Km		
5	Name of main cities & distance	♦ Palampur 60Km		
6	Name of main cities where product will be sold/ marketed	→ Palampur 60Km		

### 5. Executive Summary-

Food Processing (Turmeric Powder) income generation activity has been selected by this Self Help Group. This IGA will be carried out by all ladies of this SHG. Powder of turmeric will be made by this group initially. This business activity will be carried out yearly by group members. The process of making powder takes around 8-10 days. Production process includes process like cleaning, washing, drying, grading, grinding etc. Initially group will manufacture powder of raw turmeric but in future, group will manufacture other products which follow same process. Product will be sold directly by group or indirectly through retailers and whole sellers of near market initially.

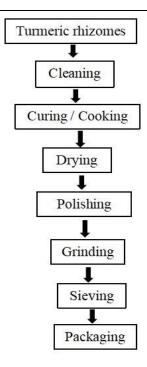

### 6. Description of product related to Income Generating Activity-

1	Name of the Product	Turmeric Powder
2	Method of product identification	Has been decided by group members
3	Consent of SHG/ CIG / cluster members	Yes

#### 7. Production Processes-

#### **\*** Harvesting-

- ❖ Depending upon the variety, the crop becomes ready for harvest in 7-9 months. Early varieties mature in 7-8 months, medium varieties in 8-9 months and late varieties after 9 months.
- ♦ On maturity, the leaves turn dry and are light brown to yellowish in colour.
- ♦ The land is ploughed and the rhizomes are gathered by hand picking or the clumps are carefully lifted with a spade.
- The harvested rhizomes are cleared of mud and other extraneous matter adhering to them.
  - Fingers are separated from mother rhizomes. Mother rhizomes are usually kept as seed material.

### Processing-

#### ♦ Sweating

After digging the turmeric from the ground, the leaves were separated from the plant and the roots were carefully wash off to remove all the impurities. Leaf scales and long roots are trim off and the rhizomes and branches are separate and cover in leaves and then remain for a day for sweating.

### ♦ Curing

To get the dry form of turmeric, it is being cure. After washing it off, the rhizomes were boiled in water and dry under the sun. The boiling process lasts from 45-60 min until the rhizomes turn soft. Boiling usually stop when comes out and white fumes appear giving out a typical odor. The stage where boiling is stopped highly influence the color and aroma of the final product.

#### ♦ <u>Drying</u>

After curing the turmeric the next step is drying. By using the drying floor or bamboo mats 5-7 cm thick layer of turmeric spread under the sun for drying. It takes 10-15 days for drying properly. At the night the turmeric is cover with a material which provides aeration.

#### ♦ Polishing

After drying it has a rough dull outer surface with scales and root bites. By polishing the appearance will be improve and for this basically manual and mechanical rubbing technique were use.

#### ♦ Coloring

The color of turmeric matters a lot. As the price was decided according to the color of the product.

#### ♦ Grinding

The polished turmeric fingers are subjected to grinding. Grinding is one of the most common operations used to prepare turmeric powder for consumption and resale. The main aim of particular spice grinding is to obtain smaller particle sizes, with good product quality in terms of flavour and color. There are different ambient grinding mills and methods available for this process; such as hammer mill, attrition mill and pin mill. In India, traditionally, plate mills and hammer mills are used for turmeric grinding.

### ♦ Sieving

Ground spices are size sorted through screens, and the larger particles can be further ground. The screens usually used are 60 - 80 mesh size.

### ♦ Packaging & Storing

Turmeric is packed in air-tight paper bags inner coated with polyethylene. Also, to maintain the quality of the product, it is stored in dry storage and away from the light. So that turmeric doesn't lose the proper amount of moisture it has.

### 8. Production Planning -

1.	Production Cycle for turmeric powder (in days)	8-10days
2.	Man power required per cycle(No.)	All ladies
3.	Source of raw materials	Local market/Main market
4.	Source of other resources	Local market / Main market
5.	Quantity required per month(Kg)	600
8.	Expected production per month(Kg)	600

## Requirement of raw material and expected production

Sr.no	Raw	Unit	Time	Quantity(	Amount	Total	Expected
	material			approx)	per	amount	production
					Kg(Rs)		Per month(Kg)
1	Raw	Kg	Monthly	600	50	30,000	600
	Turmeric						

# 9. Sale & Marketing -

1	Potential market places	Jaisinghpur, Shivnagar		
2	Distance from the unit	Jaisinghpur - 35 Km		
3	Demand of the production market	Daily demand		
	place/s			
4	Process of identification of market	Group members, according to their		
		production potential and demand in market,		
		will select list of retailer or whole seller.		
		Initially product will be sold in near		
		markets.		
5	Marketing Strategy of the product	SHG members will directly sell their produc		
		through village shops and from manufacturing		
		place/shop. Also by retailer, wholesaler of		
		near markets. Initially product will be sold in		
		1Kg, 0.5 Kg's and 0.250kgs packaging.		
6	Product branding	At CIG/SHG level product will be		
		marketed by branding CIG/SHG. Later		
		this IGA may required branding at cluster		
		level		
7	Product "slogan"	" Maa Bhawani Organic Haldi"		

# 10. SWOT Analysis-

## Strength—

♦ Raw material easily available.

- ♦ Proper packing and easy to transport.
- ♦ Product shelf life is long.
- ♦ Homemade, lower cost.

#### Weakness—

- ♦ Effect of temperature, humidity, moisture on manufacturing process/product.
- ♦ Highly labor intensive work.
- ♦ Compete with other old and well known products.
- Opportunity—There are good opportunities of profits as product cost is lower than other same categories products.
  - ♦ High demand in shops, fast food stalls, retailers, wholesalers, canteen, restaurants, chefs and cooks, housewives, by beauty brands for making beauty products and also by pharmaceutical companies.
  - ♦ There are opportunities of expansion with production at a larger scale.
  - ♦ Daily consumption.

#### ❖ Threats/Risks—

- ♦ Effect of temperature, moisture at time of manufacturing and packaging particularly in winter and rainy season.
- ♦ Suddenly increase in price of raw material.
- ♦ Competitive market.

### 11. Description of management among members-

By mutual consent SHG group members will decide their role and responsibility to carry out the work. Work will be divided among members according to their mental and physical capabilities.

- Some group members will involve in Pre-production process (i.e.-procuring of raw material etc).
- Some group members will involve in production process.
- Some group members will involve in packaging and marketing.

# 12. Description of Economics -

. No.	Particulars	Quantity	Unit Price	Amount (Rs)
1	Haldi seeds	100	75	7,500
2	Grinder Machine	1	30,000	30,000
3	Storage tank	1	3,000	3,000
4	Kitchen tools		LS	4,000
5	Hand Operated Packing Machine	1	10,000	10,000
Total Capital Cost (A) =				54,500

	B. Recurring Cost						
S. No.	Particulars	Unit	Quantity	Price	Total Amount (Rs)		
1	Raw material	Month	200	50	10,000		
2	Room rent	Month	1	1000	1000		
3	Packaging material	Month	LS	2000	2000		
4	Transportation	Month	1	1000	1000		
5	Other (stationary, electricity, water bill, machine repair )	Month	1	1500	1500		
	Total Recurring Cost (B) = 15,500						

C. Cost of production					
S. No.	Particulars	Amount			
1	Total recurring cost	15,500			
2	10% depreciation annually on capital cost	5450			
	Total = 20950				

	D. Selling price calculation				
S. No.	Particulars	Unit	Amount		
1	Cost of production	Kg	80		
2	Current market price	Kg	250-300		
3	Expected selling price	Kg	250		

# 13. Analysis of Income and Expenditure ( per month) -

S. No.	Particulars	Amount	
1	10% depreciation annually on capital cost	5450	
2	Total Recurring Cost	15,500	
3	Total Production (Kg)	200	
4	Selling Price (per Kg)	250	
5	Income generation (250*1200)	300000	
6	Net profit	279050	
7	Distribution of net profit	<ul> <li>❖ Profit will be distributed         equally among members         monthly/yearly basis.</li> <li>❖ Profit will be utilized to meet         recurring cost.</li> <li>❖ Profit will be used for further         investment in IGA</li> </ul>	

# 14. Fund Requirement -

S. No.	Particulars	Total Amount (Rs)	Project Contribution	SHG contribution
1	Total capital cost	54,500	40,875	13,625
2	Total Recurring Cost	15,500	0	15,500
3	Training/capacity building/skill up- gradation.	50,000	50,000	0
	Total	120,000	90,875	29,125

### 15. Sources of Fund -

Project	♦ 50% of capital cost will be provided by	Procurement of	
support	project if the group belongs to general	machines/equipment	
	category and 75% if from other category.	will be done by	
	♦ Up to Rs 1 lakhs will be parked in the	respective	
	SHG bank account.	DMU/FCCU after	
	♦ Training/capacity building/ skill up-	following all codal	
	gradation cost.	formalities.	
	♦ The subsidy of 5% interest rate will be		
	deposited directly to the Bank/Financial		
	Institution by DMU and this facility will		
	be only for three years. SHG have to pay		
	the installments of the Principal amount		
	on regular basis.		
SHG	♦ 50% of capital cost to be borne by SHG		
Contribution	if belongs to general category and if from		
	other category then 25%. But members		
	belongs to low income group and they		
	can contribute 25% and project has to		
	bear remaining 75%.		
	→ Recurring cost to be borne by SHG.		

### 16. Training/capacity building/skill up-gradation -

Training/capacity building/ skill up-gradation cost will be borne by project.

Following are some training/capacity building/ skill up-gradation proposed/needed:

- ♦ Cost effective procurement of raw material
- ♦ Quality control
- ♦ Packaging and Marketing
- ♦ Financial Management

## 17. Computation of break-even point -

- = Capital Expenditure/(selling price (per kg)-cost of production (per kg))
- = 54500/(250-80)
- = 320 Kg

In this process break-even will be achieved after selling 320 kg powder.

### 18. Bank Loan Repayment-

If the loan is availed from bank it will be in the form of cash credit limit and for CCL there is not repayment schedule; however, the monthly saving and repayment receipt from members should be routed through CCL.

- ❖ In CCL, the principal loan outstanding of the SHG must be fully paid to the banks once a year. The interest amount should be paid on a monthly basis.
- ❖ In term loans, the repayment must be made as per the repayment schedule in the banks.
- ❖ Project support The subsidy of 5% interest rate will be deposited directly to the Bank/Financial Institution by DMU and this facility will be only for three years. SHG/CIG have to pay the installments of the Principal amount on regular basis.

### 19. Monitoring Method-

- Social Audit Committee of the VFDS will monitor the progress and performance of the IGA and suggest corrective action if need be to ensure operation of the unit as per projection.
- SHG should also review the progress and performance of the IGA of each member and suggest corrective action if need be to ensure operation of the unit as per projection.

Some key indicators for the monitoring are as:

- ♦ Size of the group
- ♦ Fund management
- ♦ Investment
- ♦ Income generation
- ♦ Quality of product

#### 20. Remarks

Members belongs to low income group and they can contribute 25% and project has to bear remaining 75%. In future, group will also make other species powder that follow the same process and require the same machines.
